## Canada's Bill C-4 / The Church and Covid-19

December 16, 2021

### For The King - Rocky Ramsey

This episode I walk through Canada's new horrific bill that has royal ascent and to be put into legislation 30 days after that ascent. The bill criminalized up to 5 years in prison for forcing any individual to undergo conversion therapy (in other words counseled in a biblical worldview of human sexuality). You can also be imprisoned for up to 2 years for just advertising the practice. After that I walk through one of Joe Rogan's recent guests, Peter A. McCullough and his clinical expertise on how the nation has reacted to Covid-19 and his claim that the church along with the rest of the world has undergone a mass psychosis similar to that in cults and Nazi Germany.

Key Texts: Daniel 7:13-14; Romans 1; 1 Peter 2; Romans 13

Here is Canada's Bill C-4 : <https://www.parl.ca/DocumentViewer/en/44-1/bill/C-4/first-reading>

Here is Joe Rogan's episode with Dr. McCullough :

## Transcript

Hey everybody, I know I'm releasing this episode on a Thursday, not on a Wednesday, but I was just too excited to hold this one and I wanted to get it out and I also wanted to

get it out before. Next week I talk to Dr. Ben Edwards and we're going to do an interview and he'll walk us through some more of these issues, these health issues surrounding Covid and how to think about Covid. So stay tuned for that.

Next Wednesday look for that and I wanted to upload it before that, so I'm going to do it tonight when I'm recording this. So thanks for listening and I hope this edified and encouraged you and you learned something. Thanks for listening.

Enjoy the podcast. Everyone who knowingly causes another person to undergo conversion therapy, including by providing conversion therapy to that other person, is a guilty of an indictable offense and liable to imprisonment for a term of not more than five years. Don't think I will even ask you to make Jesus Lord of your life.

That's the most preposterous thing I could ever tell you to do. Jesus Christ is Lord of your life. Whether you serve him or not, whether you bless him, curse him, hate him, or love him, he is the Lord of your life because God has given him a name that is above every name so that the name of Jesus Christ every knee shall bow and tongue confess that he is Lord.

Some of you will bow out of the grace that has been given to you and others will bow because your kneecaps will be broken by the one who rules the nations with a rod of iron. And I'll not apologize for this God of the Bible.

[Music] Daniel chapter 7 verses 13 and 14.

"I saw in the night visions and behold with the clouds of heaven there came one like a son of man and he came to the ancient of days and was presented before him. And to him was given dominion and glory and a kingdom that all peoples nations and languages should serve him. His dominion is an everlasting dominion which shall not pass away and is kingdom one that shall not be destroyed." Thanks for tuning in to the For the King podcast.

I wanted to start off reading different texts we do at the beginning of the podcast highlighting the kingship of Christ that Jesus is this king that we serve here on the For the King podcast and that you may not serve him but he is your king which is the position that we maintain on this podcast that he's the king overall. So thanks for tuning in whatever your walk of life and wherever you're at we appreciate you coming to hear the good news of Jesus Christ and to hear about the king. That's who we talk about on the podcast.

But today is a I call them wonky Wednesdays so they're different material. On Sundays Bryce and I my co-host Bryce and I your host Rocky go through different theological topics on Sundays that are meant for the edification and building up of the church. And I want to do that same thing edify and build up the church and encourage my brothers

and sisters and to maybe challenge those that do not know Christ and do not bend the knee to him or are just skeptical or have what to learn about the Christian worldview.

I want these Wednesdays to be implications of the Christian worldview. So maybe not overtly theological topics but theology and hermeneutics and God's word the kingship of Christ will influence and have implications on the way we live in the world. So that's what these Wednesday episodes are for.

And I'm going to talk about some things today. This is this is going to be more of a news update on the world things that are happening around us that are deceitful. Satan's cunning at work the serpent slithering throughout the earth wandering to and fro although he is a serpent on a chain.

So I want to remind you guys to think back to that Daniel verse that I read at the beginning 7 13 and 14 that Jesus is going to be given a kingdom. He has been given a kingdom and his kingdom will have no end. Okay so the kingdom of God the gates of hell will not prevail against the kingdom of God against the church and Christ will be victorious at the end.

He has already won the battle and he will come back to consummate this victory in due time. Okay so be encouraged and the things I talk about although alarming on this podcast will not bar Christ from being king. He's king right now so I just want to remind you of that.

And a lot of the things I'm going to talk about today from the news you know in Romans 1 we see Paul saying that claiming to be wise and in Romans 1 22 claiming to be wise they became fools in exchange the glory of the immortal God for images resembling mortal man and birds and animals and creeping things so this proclivity of mankind to give up the image of God right and wanting the image of things that they want instead of God idols that they're making. And we see that God gives these people up that do these things to a debased mind and dishonorable passions and they give up their natural relations and the things natural to mankind for things that are evil. So the first thing I want to talk about today is this recent bill that was passed in the House of Commons in Canada on November 29th 2021.

I think it says the first reading was on that. I don't know exactly when it was passed but it has been I forget what they call it in their legislator. Royal Ascent.

So after Royal Ascent this you know bill becomes law and this bill has received that Royal Ascent so it is on the books this is going to go into law into legislation in Canada and this is what the bill is it's Bill C-4 and let me just read a little bit from it and then I'm gonna we're gonna listen to Dr. Joseph Boot or Joe Boot out of the Ezra Institute and in Canada so he's a Canadian he lives in Canada and has a ministry in Canada and him talking about it you can go to their their podcast Ezra Institute and listen to it listen to

them interacting with this bill but it's very very very alarming and for those of you that maybe don't know this I would like you to I would like to equip you and to put you in the know that this has happened and that again it can happen here you know so many people think oh no that can't happen here oh we're a Christian nation you know we'll never go pagan you know no it can happen here that that we can be given up again when we see when when we start making idols in our heart and we forsake God and turn away from him he gives us up to debased minds okay this can happen here it can happen to any human apart from the grace of God we will always be given over to things like this bill so Bill C-4 so this is an act an act to amend the criminal code conversion therapy and I'll put this in the show notes this um the um I'm sorry the hyperlink the source of of where I'm getting this from so the which is I think it's the Canadian the parliament of Canada's website um [parl.ca](http://parl.ca) so the summary of or sorry the preamble to this bill is whereas conversion therapy causes harm to the persons who are subjected to it whereas conversion therapy causes harm to society because among other things it is based on and propagates myths and stereotypes about sexual orientation gender identity and gender expression including the myth that heterosexuality cisgender gender identity and gender expression that conforms to the sex assigned to a person at birth are to be preferred over other sexual orientations gender identities and gender expressions and whereas in light of those harms it is important to discouraged and denounce the provision of conversion therapy in order to protect the human dignity and equality of all Canadians now therefore her majesty by and with the advice and consent of the senate and house of commons of Canada enacts as follows so um that's the preamble and then they put in conversion therapy into a bunch of the criminal code so there are like for instance the owner and maker of the matter ceased under subsection one and alleged to be obscene child pornography a voyeuristic recording an intimate image an advertisement of sexual services or and then they include this now an advertisement for conversion therapy may appear and be represented in the proceedings to oppose the making of an order for the forfeit of the matter so they do again the rest of the bill then goes into that they're putting in an advertisement for conversion therapy in a bunch of different other parts of their own criminal code okay so this is they're making this a crime on par with having child pornography with having an intimate image um things like that voyeuristic recordings they're putting that this in the same category as those things appalling right um completely disregarding the word of god and what god has revealed to us the obvious things of nature um and again this is going to get into the second part of this podcast but do we trust legislators that don't even know what a man is and what a woman is that would push legislation like that why should we trust them to give us health public health edicts that are godly upright and righteous okay so but that's let's save that for later let's put that in our back pocket um let's go down to okay so then they they define conversion therapy so if there's any of you listening that don't know what conversion therapy is here's here's the definition they give in the bill um in all the sections stated above so they lay out all the sections that are changed conversion therapy means a practice treatment or service designed to a

change a person's sexual orientation to heterosexual b change a person's gender identity to cisgender c change a person's gender expression so that it conforms to the sex assigned to the person at birth d repress or reduce non-heterosexual attraction or sexual behavior e repress a person's non-cisgender gender identity or f repress or reduce a person's gender expression that does not conform to the sex assigned to the person at birth okay and then they say for greater certainty this definition does not include a practice treatment or service that relates to the exploration or development of an integrated personal identity so basically you need a phd in gender expression or um you know social gender social theory or whatever i don't even know what they would call it but basically you're going to need that phd to even decipher what's being said in this ridiculous law um and joe boot said that in the ezra uh ezra institute podcast i was listening to i thought it was amusing but yeah i mean the the nomenclature that's being used i mean i i can understand it to some extent um yeah so i'm guessing heterosexual is talking about sexual desire cisgender is talking about your gender you know what you if you're binary and your gender or if you think their gender is a spectrum that kind of thing um so that's how that's how they define conversion therapy and this is the crux guys this is where our culture is at war with christianity and there's nothing neutral the lib the liberals are not neutral okay like liberalism is not like a neutral political ideology it has underlying presuppositions that are completely antithetical to the christian worldview and it's coming out now as their legislation starts to be passed um so we've seen a flip um in our society well at least in canada we haven't gotten this far yet in america but it's coming it can happen here so stand up get to know your your lesser magistrate to oppose these unlawful draconian edicts that are going to come our way you must be ready we must have our armor of god on um keeping watch and acting like men and being firm um so 320.102 which is i guess a section in a subsection of the bill um if you were to go read it i'll put the i'll put it in the show notes remember so you can go look at it everyone who knowingly causes another person to undergo conversion therapy including by providing conversion therapy to that other person is a guilty of an indictable offense and liable to imprisonment for a term of not more than five years or be guilty of an offense punishable on summary conviction i don't even know what summary conviction is but that a part is pretty wild you can be in canada you can be imprisoned for no more than five years for anybody that knowingly causes another person to undergo conversion therapy so for instance you're a parent a christian uh christian parents they have a biblical worldview about what sex is and your kid going off the rails and being given over to sin that's a that's a male wants to become a female if the parents put that kid into conversion therapy which they defined as any of those things above a through f which are very easy this easy to identify biblical uh the counsel that any any good pastor would give somebody struggling with this sin um to change the person's sexual orientation to heterosexual and to change their gender identity to cisgender that's pretty normative christian creative order kind of counsel if a if a christian set of parents wanted their pastor or biblical counselor to go through that with their kids those parents if the kid goes and obviously would alert the authorities that

they're being um they're having a crime done against them um they can the parents can be guilty and the um pastor as we'll see in part this next part um is is uh liable to imprisonment for uh not nothing more than five years nothing more than five years but five years of your life can be utterly taken away from you because you um wanted to teach your kid a biblical worldview so it can happen here guys um 320 uh 320.103 everyone who knowingly promotes or advertises conversion therapy is guilty of an indictable offense and liable to imprisonment for a term of not more than two years so if i on this if i were in canada and i had a pot and i had that my podcast and i were promoting um it would be like me promoting all my podcasts are talking about that a way a christian ought to counsel somebody is struggling with such sin is to encourage that person to be heterosexual cisgender uh biblical uh human sexuality if i were to encourage people to do that from my platform on a podcast or on a website or on a billboard or anything as a company whatever if you promote it you can be uh put in jail for two years so we've just seen in canada the legislation of criminalizing christianity christianity is now criminalized in canada and the last part of the bill 320.104 everyone who receives a financial or other material benefit knowing that it is obtained or derived directly or indirectly from the provision of conversion therapy is guilty of an indictable offense and liable to imprisonment for a term of not more than two years okay um just absolutely ridiculous sinful activity coming from the parliament in canada um wicked wicked wicked people that hate christianity that hate christ the king will not bend the knee and will legislate their own morality that does not it's not grounded in anything real um again there's nothing neutral in the world atheism is a set of first principles that you derive religious meaning from on a daily basis and you will enact those principles and presuppositions in law and legislate your own morality um there's nothing neutral so when we want to keep politics separate from christianity this is what happens people think they get good ideas and then they legislate it god's ideas are much much better than sinful man's ideas and we must have our minds renewed by the scriptures to know what is right our minds will not be renewed by indicting people for teaching biblical truths there are eternal truths that god has given us through the holy spirit that are so obvious you almost don't even need the scriptures to know that this is stupid um if everybody turned gay turned uh homosexual um the human race would die out in one generation you'd be done um yeah well i guess three generations if you'll have you know grandma father child but um yeah within a hundred years the the human race would go out and extinct it's a self-implosion it's genocide on the on the human race as a whole and i i just i can't fathom even in their own rational mind when you when you look at the animal kingdom i mean they will tout evolution as their guidance on morality and how they think about where humans come from and where the world came from and evolution clearly teaches that to propagate you must reproduce um and and and to have this written in the law there's an argument for god in here that we would even have a law like this like if we were just animals why would we ever legislate the implosion of our own species if we were animals granted that um it's foolishness okay so there's the bill and you can go check it out now here is dr joe boot on uh alie bet's stucky's podcast

show um he's from the ezra institute he's a he's a theologian pastor founder um really great guy a lot of knowledge and things worth listening to you should go check him out and check out the ezra institute but here's his take on some of the bill and we're gonna we're gonna listen to it um just so you can get a you know idea of what he's like and i'm gonna interact with that a little bit the language regime and what this law does is basically now uh enforces through criminal sanctions a new theological political language regime that prevents you from even speaking uh clearly and talking with people uh about these issues on a repeat basis um and prevents anybody who should wish to conform themselves to uh the traditional understanding in the christian norm um they are criminalized and the incredible danger of this bill especially for a christian like myself um and those who hold to a traditional understanding of male and female and marriage is that it essentially is criminalizing the christian faith it's criminalizing the call to conversion um because the bill uh requires that any sort of um advertising or promotion or even the attempt to lessen somebody's uh homosexual desires or gender dysphoric orientation or desire to cross dress or whatever it may be um is itself criminal and if you would permit okay so you hear his analysis i mean we're reading the bill correctly okay we're not over-exaggerating this is a criminalization of the christian faith in canada we're reading it correctly it me 30 seconds to read um what the apostle paul says about it just so you know how serious this is for the christian yes in first carinthian six he says don't you know that the unrighteous will not inherit god's kingdom do not be deceived no sexually immoral people idolaters adulterers or males who have sex with males no thieves greedy people drunkards verbally abusive people or swindlers will inherit god's kingdom and such some of you used to be like this and some of you used to be like this but you were washed you were sanctified you were justified in the name of the lord jesus christ and by the spirit of our god he goes on to say flee sexual immorality every other sin a person commits is outside the body but the person who is sexually immoral sins against his own body don't you know that your body is a temple of the holy spirit who is in you whom you have from god you are not your own you were bought at the price so glorify god with your body so this is central to the christian message to christian okay i mean again this is this is clear biblical teaching of what human sexuality is like god defines all things relating to mankind and jubu is completely correct and that's just one passage from first carinthian six um again roman's one that i was reading from earlier let's just listen to this um starting in verse 24 therefore god gave them up in the lust of their hearts to impurity to the dishonoring of their bodies among themselves because they exchanged the truth about god for a lie and worshipped and served the creature rather than creator who was blessed forever amen for this reason god gave them up to dishonorable passions for their women exchanged natural relations for those that are contrary to nature and the men likewise gave up natural relations with women and were consumed with passion for one another men committing shameless acts with men and receiving themselves the due penalty for their error okay again this is clear biblical teaching there's no room for this law and christianity so those liberal christians that are going to say this is fine we're finally getting you know uh god is a god of love and we're

finally seeing a love for our transgender and homosexual neighbor this is great this is not great this is depravity this is human depravity at its finest and it's being legislated it's not just happening in the world and then we can hope on the state to come you know do something about it or for the church to excommunicate somebody for it no this is something um that is now protected under law in canada a western nation it can happen here let's listen more teaching to the preaching of the gospel and it's being criminalized so under this law would it be illegal for a pastor to exposit that passage from the pulpit or are we only talking about paid services here that are banned what is any practice um or or treatment or service and of course you can the problem is is the ambiguity you can drive a bus uh a freight train through the definition uh there is no real definition and you can drive a freight train through uh practice service or treatment um you are certainly forbidden in this law to in any way profit from the the provision okay this law is it is intentionally broad and vague to include all forms of this kind of anti-sexual expression creative order teaching council that could happen in society um this is supposed to grab and capture all of biblical christian teaching in the world or the advertising of or the promotion of conversion therapy it's actually unclear whether let's say a pastor was doing a sermon series on biblical sexuality for the congregation and was involved in praying for people after the service about those issues um there's nothing in this law um which would say that a pastor is protected uh in such an instance and certainly if somebody after a series of sermons like that would say can i come and see you about my um struggles with my sexuality and my sexual identity and the pastor agreed to that and counseled in terms of the biblical understanding that would be the provision of conversion therapy and would carry up to five years in prison so the problem is is the is the ambiguity uh here would just a sermon be covered the truth of the issue is we don't know could that be counted as talk therapy okay so we can end there but the point is we don't know we don't know how the one they will enforce this in canada i mean joe boot you know very very easily because of what he's taught in the ezra institute somehow be um included under that law in that bill and he is a pastor i don't know if he's currently presiding as a pastor but again any faithful minister in canada that speaks clearly about what the bible says about human sexuality can be put in prison for up to five years because they have done something on par on the same level as harboring child pornography just unjust weights and measures double standards um yeah so i think that's all i have to say there now what i wanted to piggyback off that and go to um again this is kind of a you know big big things happening in terms of um the onslaught against the church happening in our culture um another thing that has happened is this extremely bad biblical reasoning on how the church relates to the state and this does bleed into our next discussion um which is uh on the the vaccine the way the government has reacted to the whole covid 19 ordeal okay um this happening in canada again all across the board we have nations taking um you know taking advantage of the situation with covid 19 to gain power and control um from the people okay so we already see joe boot would go on to in this in this podcast he eventually says that this is um this is on par with in canada as having a one nation state all right sorry a one party system

which is fascist um it's it's fascism okay uh so we we see this kind of totalitarian takeover happening in cultures all across the world um if you see the things happening in australia and new zealand um this is draconian measures and to some extent what's been happening in america so um recently joe rogan had this guy named dr peter a mcollough on he's an md he's been published a lot he testified before the supreme court um at some point last year at the beginning he is a doctor he's an md and he's actually treated covid patients and from his clinical experience which trumps clinical experience always trumps uh data and what it's trumps one other thing um i forget the way they the hierarchy of um administering treatments for a doctor is but um clinical experience is like paramount and then and then even higher than clinical experience is the uh patients uh the patient's wishes what the patient would want done if the patient doesn't want an experimental drug done on them they don't have to have that done even if clinical experience has proved that this research project um in the past has proved fine for people this this research drug um whatever so there's a hierarchy of the way that you would um prescribe things and so many of the doctors that are giving us advice about how to treat covid and how to react to covid they haven't even treated one covid patient they don't even know what the heck they're talking about this guy comes on joe rogan and just talks about um so many different topics some of the big takeaways i had from listening to it you should go listen to it i'll put it on there on my um my show notes um but some of the big takeaways is it's very alarming um the quickness of the vaccine in response to um what had been sort of anticipated there was and john hopkins they did a fema um exercise about coronavirus that about a coronavirus that could do x y and z and for some reason all in madonna and fizer they were able to what usually takes years apparently to learn how to put mrna into i don't know whatever they put it into in the vaccine usually takes a long time and he walks through how this is alarming that they kind of had already anticipated that something like this would happen which is maybe good that we were um ahead of things is a way you could spin it but um he says it takes like six weeks to get a death certificate and at the beginning of the pandemic we were getting death numbers like weirdly quickly um again this could all just be rushed science you know that um in a time in a state of fear right we need to do things quicker so we don't have to worry about peer-reviewed literature and all that um but i would say a lot of things that he walks through is very compelling um and i'm already obviously skeptical of the vaccine they're pushing it for children when there are 30 000 cases of myocarditis in children which is like six times higher than their um uh than their likelihood of actually getting covid-19 so if you were to get the vaccine you're more likely to get a life-altering condition myocarditis of heart inflammation um than you are from getting covid as a child and they're pushing the vaccine there's just a lot of very foolish not following the science at all um and they ridicule fauci for saying i want like he he's literally publicly said that i am truth i am science right like personifying science in a person of himself um not not a very humble man not a man i would want to listen to um so let's and again because of all this really bad science and all this fear that is over our whole nation and christians included the church is like not doing any better is the point

um and he walks through this i don't know if this peter mccollough guy is a christian or not i have no idea joe is not a christian um but just listen to what this guy says and then i'm going to comment on it and we're going to walk through it a little bit and i'm going to challenge you all with something how did they organize something like this and how do you get so many doctors to go along with this how do you get so many doctors to not speak out against the lack of pre-hospitalization care the lack of early treatment we think there's about 500 doctors who knows what going what's going on in the united states 500 500 we got a million doctors in the united states we got half a million nurse practitioners and physician assistants i can tell you the nurses are more awake than the doctors why is that the doctors appear to be like many of our leaders by the way all the leaders leaders of the major churches every single one of them the major religious branches are under the spell every major global international leader is under the spell we're in what's called a mass formation psychosis this is very important i give credit to dr mattias desmet in the university against in belgium and recently dr mark mcdonald psychiatrist from la mark mcdonald's got a new book out the united states of fear describing how the mass psychosis developed what your listeners need to know is a mass psychosis is when there is a group think that develops that's so strong that it leads to something horrific and the examples are these mass suicides that occur in these religious cults the example is nazi germany when people walk into gas chambers and we're gas these horrific things and in four elements here it's very important joe first there must be a period of prolonged isolation lockdowns number two there must be a withdrawal of things taken away from people that they used to enjoy that's happened number three there must be constant incessant free-floating anxiety all this news cycle all the deaths and the hospitalizations more more variant mutant strains everything people becoming scared over and over again and the last thing number four the capper the capper is there must be a single solution offered by an entity in authority okay hopefully you pick up what he's saying and what he's walking through this mass psychosis this mass brainwashing whatever you would call it there is this site this the boy they call they you you can call it a psi op it's a psychological operation that can be done on a group of people to get them to do something so this is very common in the cults it was very common common in nazi germany in fascist states back in the 1940s to get people to be subservient and obedient to the authority so the way it cooperates you get a charismatic leader that comes in and sets up some kind of arbitrary law that must be followed and the leader is charismatic and likable and they find in a sense they find salvation in the leader and then the people follow it becomes subservient and obedient like sheep and jesus knew that humans are like sheep and that's why he had compassion on the flock and he said fear not little flock for the kingdom is yours uh jesus is the good shepherd that will never take advantage of the sheep and actually protects the sheep from wolves the cults are wolves are let our modern day public officials are wolves the canadian legislator are wolves um we just follow along and the church has done nothing better and the amount of reasoning political reasoning from the scriptures that i've heard that we're just supposed to obey um the government no matter what because

roman 13 and first peter 2 says clearly we're supposed to honor the emperor even if they are tyrannical and even if they are um dishing out arbitrary edicts we must believe and trust in the leaders and that is exactly how a mass psychosis happens right you have some kind of arbitrary law some kind of arbitrary reasoning and in the church it's that reasoning this this like mis-kermenutic misinterpretation of roman 13 and first peter 2 now don't get me wrong um christians are supposed to be upstanding citizens in whatever nation whatever country they're in but we must follow god and not man and if the state is legislating something that's not based on truth something that's arbitrary something that's not in their god-given authority we know in roman 13 what's the authority of the state to bear the sword against those that would do wicked things and to be a blessing to those that would do good things to reward those that do good and to be a tailor to those that do evil to bear the sword towards them and you bear the sword to kill and this is talking about capital punishment this is talking about the criminal system criminal justice system that's what the state is supposed to do now we do have text in the old testament is real that there is a sense in which the state should be um used and um applied the civil magistrate should be applied in times of public health crises um but based on the data and based on any good reasoning person this did not warrant that whatsoever this uh this um situation and dr peter mcollough says that 85 to 85 percent could of the deaths could have been prevented if we would have done normal treatment protocols and not push the vaccine and push people into the icu after 14 days of illness when the viral load is too too much to bear um yeah so he just says a lot of things that make a lot of sense normal clinical practice from the light of nature natural law being employed using our empirical senses to do observational study and inductive reasoning can be useful um but the issue is when we don't follow the science we're going to be left in the ashes and doing very stupid dumb things and that's what we've seen our um public officials doing um and then to um push an experimental vaccine on the populace which is against the Nurburg code and again this is likening this mass psychosis is very reminiscent of nazi germany to get again same thing in the church the reason why i'm coming against the church right now is because that same reasoning that oh roman 13 first peter 2 says we're supposed to obey our public officials therefore um you know hitler you know he got elected to office we must follow this man um again and just war theory if you go and listen to my just war theory podcast everybody is held accountable for their decisions even if you're commander so this is again this is the doctrine of the lesser magistrate if your commander issues you an ungodly command you are to disobey that command if your um commander says go murder these innocent people because this is war you disobey that command now people have likened the covid crisis to it's a war you know this is uh this is a pathological war um we have a disease that we're fighting um and then to give unlawful dictates in the in the midst of it is foolishness and it is not using good reasoning at all and we ought to disobey those that would give us foolish and brash decision making something like um which is completely against the Nurburg code to uh mandate an experimental vaccine on the populace even just think about just the very obvious nature of the thing you must inject this foreign

material into your body to be looked well upon by society to be safe um again it's all based on faith it's all based on inductive reasoning where we have this percentage of it working and you can go read studies now that the all-cause mortality of people that have been given the vaccine is atrocious the people those people are dying because it's an immunosuppressant it's easy to find um literature on um any vaccine causes inflammation in the body um for some time and and that is bad for the body and it can cause issues um so if you just look at the various database you can see that the amount of people that have had adverse reactions to um the vaccine this is this is very clear inductive observational science this is not coming from my christianity this is just obvious research that's done and reported on and you can't just say it's it's it's perfectly safe to take the vaccine if somebody is worried about that you cannot mandate that if somebody is worried about the health effects okay so we know theologically the church is in a bad place in relation to the state and politics and christianity most certainly intertwine and christianity informs politics we must remember that so if you're in canada i'm praying for you and i'm sorry about this legislation and i hope i pray you remain steadfast in the midst of persecution and if you are brainwashed by if you're in the church you need to go reread roman 13 and first peter 2 and you need to sit down there and think for a little bit on the text and we cannot trust ungodly evil men and women that preside over us in um positions of power just because they're there you don't have to trust them just because they're there we can't trust these ungodly people that do wicked things i guess that's all i'll say but dr peter mccollough kind of walks you down in joe rogan's podcast very clearly that we can't trust these people there's mass incompetence happening at a very high level even among the most educated people um and as christians we need to think biblically and if jesus really is king that means we obviously salute and bend the knee to him alone and the state vicariously as far as they uphold the law of god and do things in a righteous manner but if that if the state goes so far as to uh mandate a vaccine as to legislate um this anti-conversion therapy in canada if the state were to do that it has now given up the authority that god has given it to act righteously in the world and is now to be imploded and will soon face the judgment of god um and these regimes always fall apart and that's why the kingdom of god never ends because it's righteous it will stand and it will remain upright and that's why the church will never end the gates of hell will not prevail against the church against the kingdom of god um so yeah there's those four steps of mass psychosis we see that happening even in the church and if you're listening and you are sympathetic to what's going on and you are just sick of christians you know fighting back against all these mandates and stuff you should just give in and get the vaccine um you are a fool you need to rethink your biblical values you need to go reread roma 13 first peter 2 um and you need to go listen to the ezra institute with joe boot you need to listen to these guys and you need to obviously repent and change your mind because you have an unbiblical view of the state you have an unbiblical view of the scriptures and you are brainwashed into a deceitful scheme um so i think that's all i have to say to you all thanks for listening and as always to the king of the ages immortal invisible the only god be honor and glory

forever and ever amen solely deo gloria so
